

Ultimate platform for
GPS tracking and IoT

FLEET MANAGEMENT

FUEL CONTROL

VIDEO TELEMATICS

PERSONAL MONITORING

Trusted: 18 years in the international market

Universal: seamlessly works with 2,200 types of hardware

Flexible: delivered as a cloud and server-based solution where you can configure every parameter

Supportive: offering 24/7 technical assistance to 1,900+ partners globally

Large-scale: 2,500,000+ assets tracked in 130+ countries

Extra: free Wialon-based applications for business-specific tasks

Comprehensive: 300+ monitoring parameters to control and report on

Fleet management

- **Real-time monitoring and analytics.** Enhance your fleet performance, keep the cargo safe at all times, make employees drive responsibly, and save money on maintenance.
- **Fuel consumption control.** Monitor fuel consumption in all types of vehicles, diesel generators, and filling stations.
- **Driving safety.** Employ Wialon to create a comprehensive driving quality assessment model specific to your enterprise. The analysis is based on preset and custom violation criteria and allows to identify reckless drivers – totally error-free.

Fuel control

Detect any type of fuel misuse and control the whole cycle of fuel distribution from filling stations to vehicles and machinery. Fuel management allows decreasing fuel thefts by 90%.

- **FLS data.** Analyze fuel consumption depending on a fuel level in the tank at different time points.
- **CAN bus data readings.** Tap into fuel parameters received via CAN bus of your vehicles.
- **Fuel consumption by math.** Use engine operation and efficiency sensors as coefficients for fuel consumption rates.
- **The proprietary fuel management system.** Detect fuel thefts in the most complicated cases, including underfillings, card frauds, insufficient driving, siphoning, and much more.

Video telematics

Wialon brings together satellite monitoring and video surveillance in one platform for you to reduce accident rates, increase fuel economy, and improve safety on the road.

- **Track and watch.** View photos and videos right in the monitoring interface.
- **Enforce analytics with visuals.** Generate reports with event time, location, and video data.
- **Discipline drivers.** Analyze the driving style and provide recommendations.
- **Save on mobile data.** Minimize traffic consumption with event-based video monitoring.
- **Observe safety on production sites.** Bind video streaming to geofences.

Personal monitoring

Wialon makes personal monitoring possible in many different ways, and you can pick the one that suits you best or use the WiaTag and Distance Tag Wialon-based apps.

- **Track the location.** Stay informed on whether your employees or other people observe the quarantine measures or are in the place they are supposed to be.
- **Get notifications.** Whenever your own limitations or quarantine measures are violated, get notified on that.
- **Improve any business.** Whether it's health-care, security, delivery, service industry, public utilities, Wialon personal tracking solutions help you manage and monitor staff performance.
