

A man and a woman are standing in a warehouse or storage area. The man, on the left, is wearing a grey polo shirt, dark cargo pants, and a grey baseball cap. He is holding a tablet computer and looking at it. The woman, on the right, is wearing an orange button-down shirt and white pants. She is holding a white cardboard box and looking at it with a smile. In the background, there is a large stack of white cardboard boxes and a person in a grey shirt and cap working. The text "The platform for organizing road transportation" is overlaid in the center of the image.

The platform for organizing road transportation

The carrier was looking for a solution that would improve the quality of services provided and reduce costs:

Displaying an order in the Transfort web application

- The solution advantages include a regularly updated database of reliable partners, transaction support from start to finish, electronic document management, and a tendering system that reduces transportation costs. Another essential thing is that the system excludes the possibility for carriers to overcharge tariffs.

✓ **Tariff reduction by 35%**
This happened due to the trading system introduction.

- This happened due to the trading system introduction.

- The load on dispatchers decreased due to the digitalization of processes concerning work with contractor vehicles.

- The client could save money due to the work control system.

 IoT project of the year nomination: Long-haul shipping
