# We are **Fleetyr**

Fleetyr is an **agnostic** platform that **connects** and **cleans** your data across multiple sources, so you can make **smarter business decisions**.

## Our Mission

UNITED DATA FOR ALL

BASED IN BRISBANE, QUEENSLAND

**June 2021**

ENTERED THE MARKET

**100+**

UNIQUE MOBILITY SOFTWARE INTEGRATIONS

## Our Singular Value

ALWAYS CONNECT THE DOTS

fleetyr

# The Problem – data

**Asset & Lease**

**Toll Usage**

**Maintenance**

**Telematics**

**Workforce & Safety**

**Fuel & Energy**

**The Fleet Manager**

has multiple sources of data that are not connected.

To find solutions to problems, the fleet manager has to look at multiple dashboards, manually create insights, and store data across various locations.

**Carpool**

**Finance & Accounting**

fleetyr

# How we turn data into gold

Our data integration and analytics platform **connects, cleans, enriches** and makes your data talk through **visualisations**.
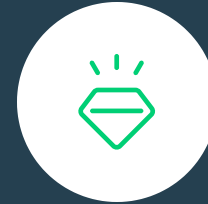

Our added integration and analytical services help you uncover actionable insights that enable your business to **continuously improve, reduce waste, and save on long-term costs**.
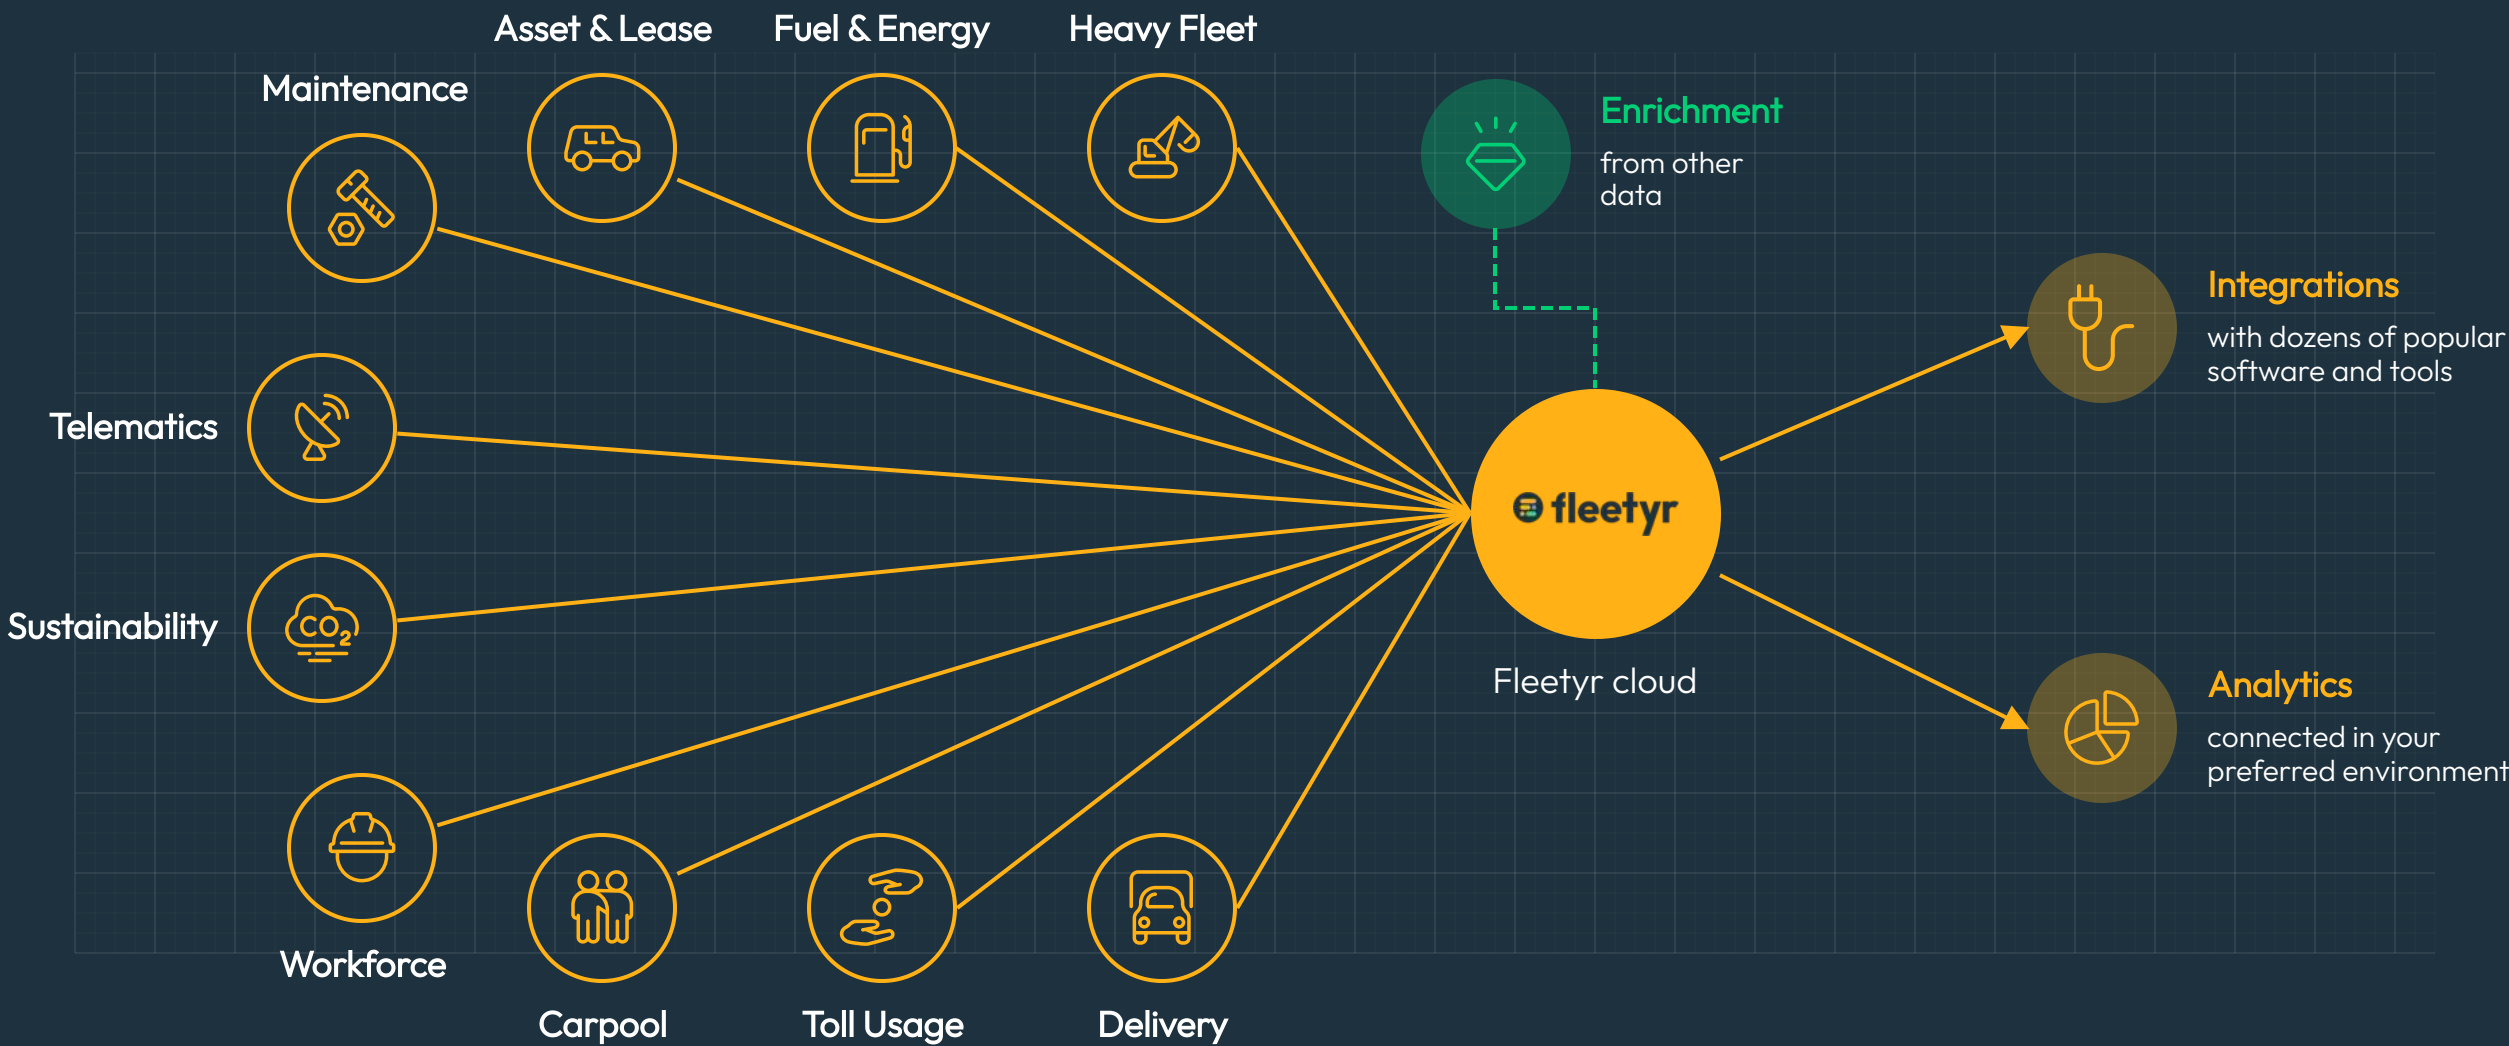

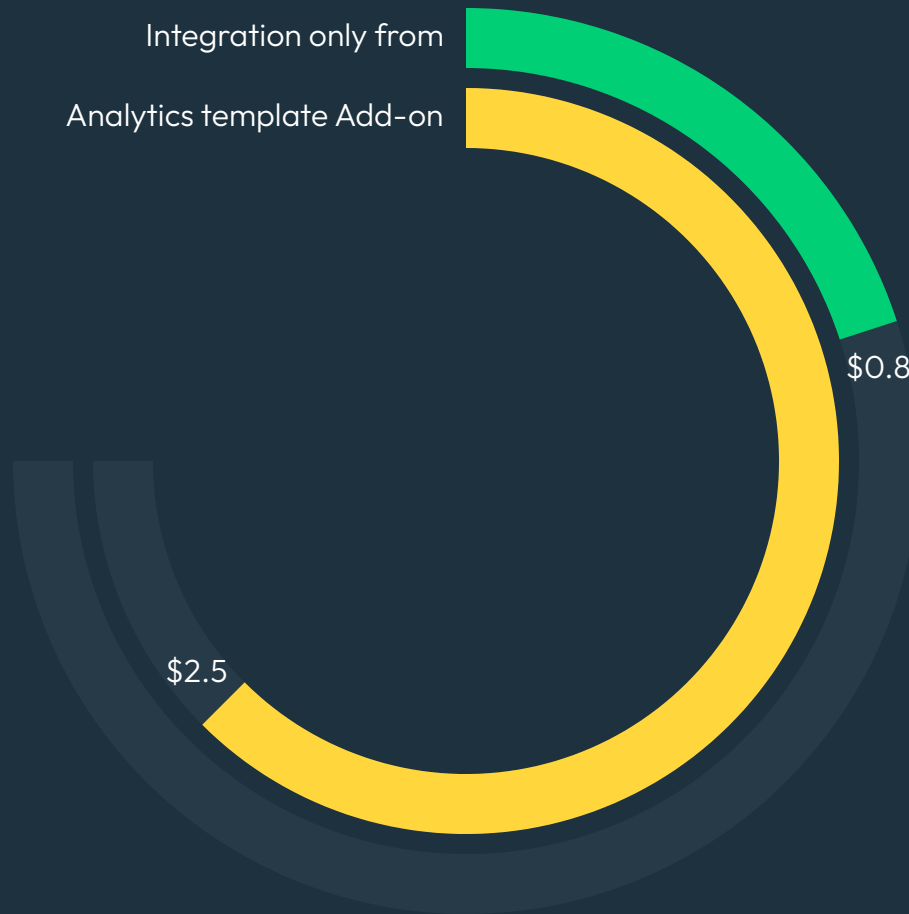

**CONNECT**

**CLEAN**

**ENRICH**

**VISUALISE**

# Meet Fleetyr's modular and flexible analytics

Our BYO solution helps you connect to Fleetyr's powerful tools to maximise your fleet analytics, while you stay in the comfort of your existing environment and keep your overall costs down.

- Stay in your existing secure and established environment.

- Choose from over 15 pre-built dashboard templates.

- Customise your dashboards to suit your needs while enjoying connected, clean and structured data.

- Available for Power BI, Tableau, and Google Data Studio environments.

# Integrate seamlessly with the tools you already use

Fleetyr integrates directly with the world's most popular products, so you can get started faster and work seamlessly. Some of our customers' favourite integration outcomes include:

- Automating odometer or engine hours in maintenance platforms from fuel or telematics.

- Adding fuel transactions from fuel cards to your asset management tool.

- Creating new work orders or update parts inventory in financial systems from maintenance platforms.

# Some of our fantastic customers

Fleetyr has a diverse customer base that crosses borders, industries, and sizes. Everyone had mobility data issues including the providers.
