

JaxiCloud Tacho Live Web Application

The complete solution for digital tachographs and drivers time management to comply with EU regulations.

JaxiCloud offers an integrated solution for reporting drivers' driving, working and resting hours from the tachograph and driver's card. It ensures that you always pay the correct salary, and that drivers comply with the rules for driving and resting times. Additionally, the system helps you keep your fleet optimized.

Our web application offers a user-friendly dashboard where clients can seamlessly track their drivers' status in real-time, whether online or offline, complete with detailed information like availability, status, connected units, location and ddd file report.

Key Advantages

- 
Continuous Driving Time
 The app shows the driver's continuous driving time and how much time the driver has remaining before a break is required. There is a 4.5-hour continuous driving limit.
- 
Daily Driving Time
 Total driving time in a day. The app automatically detects whether you are within the 9 or 10-hour daily driving limit and displays this information in the progress bar.
- 
Weekly Driving Time
 Displays the driver's total driving time for the week.
- 
Service Time
 Displays when the driver's service time started, and how much service time remains.
- 
Daily Driving Time Exception
 The app shows the number of 10-hour driving days taken in the week.
- 
Daily Rest Exception
 The number of reduced daily rest periods (9 hours) taken in the last two weeks.
- 
Weekly Rest Exception
 Every two weeks, weekly rest can be reduced to a minimum of 24 hours. The app shows whether a reduced weekly rest has been taken or not.
