

RO e-Transport DECLARATION SERVICES

ONLINE ETRANSPORT DECLARATION SERVICES POWERED BY 24GPS.RO AND E-ETS HUNGARY

What is RO e-Transport?

- ❑ The Romanian Government approved in 2022 Emergency Ordinance promoted by the Ministry of Finance, which establishes the implementation of the RO e-Transport integrated electronic system for monitoring the road transportation of goods with high fiscal risk.
- ❑ The system will use data and information held at the level of the institutions or public authorities responsible for road transport and will be interconnected with other existing IT systems at the level of the Ministry of Finance, the National Agency for Fiscal Administration or the Romanian Customs Authority.
- ❑ The RO e-Transport system monitors domestic road transport of goods with high tax risk and international road transport of goods.

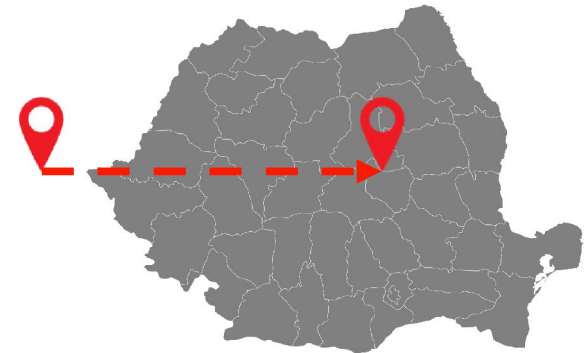

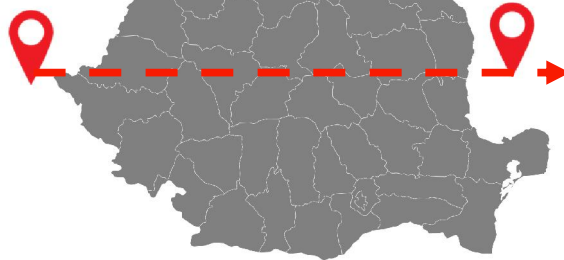

What kind of goods must be declared?

According to OPANAF 802/2022

1. Vegetables, plants, roots and tubers;
2. Edible fruits;
3. Drinks, spirits and vinegar
4. Salt; sulphur; earths and stones; plaster, lime and cement
5. Clothing and clothing accessories
6. Footwear, boots, gaiters and similar articles
7. Cast iron, iron and steel
8. Nicotine products, not containing tobacco, intended for consumption by the presented in powder or particulate form or in any form combination of these forms, marketed in portions packaged in sachets,

When I need to declare in RO e-transport?

- All transports with high fiscal risk which meet one of the following requirements:
 - All domestic transports in Romania (loading-unloading in territory of Romania)
 - All tranzit transports through Romania
 - The system will monitor in real time the movement of goods with high tax risk on Romanian territory, such as:

Roetransport.eu platform – How it works?

1. Contact us in email, or by phone: help@roetransport.eu or +36309826021
2. Share the contractual terms with you
3. Sign the contract
4. We'll generate a Wialon partner account for you
5. You'll be able to add access and to manage your partners in our platform
6. Your partners will login into platform and with their Wialon token will be able to add vehicles for declaration
7. To the vehicles attached to their account will be able to add the UIT numbers received from their Romanian partner or directly from ANAF
8. The UIT number must be attached to the vehicle for all lifetime of transportation process
9. After the goods were unloaded the UIT number needs to be deleted from vehicle and the process is closed

Screenshots – User management

The screenshot displays the 'USERS' management page in the e-track system. A dark sidebar on the left contains navigation options: Home, COMPANIES, HISTORY, MAINTENANCE, Users (selected), Manage Users, Add User, GPS Provider, Companies, Vehicles, INFORMATION, Help, and GDPR. The main content area features a search bar, a 'Show All Users' button, and a table of users. The table has columns for Name, Phone Number, Email, Status, Support, Logs, Remove User, GPS Provider info, and GPS Dealer. The 'Status' column shows 'Active' or 'Inactive'. The 'Support' column has a 'Log in' button. The 'Logs' column has a 'Show' button. The 'Remove User' column has a 'Delete' button. The 'GPS Dealer' column has an edit icon. At the bottom, it shows 'Showing 1 to 10 of 64 entries' and a pagination control with 'Previous', '1', '2', '3', '4', '5', '6', '7', and 'Next'.

Screenshots – Vehicle management

The screenshot displays the 'ASSIGN VEHICLES' page within a web application. On the left is a dark sidebar with navigation options: Home, COMPANIES, HISTORY, MAINTENANCE (Users, Companies, Vehicles), and INFORMATION (Help, GDPR). The 'Vehicles' option is expanded to show 'Vehicles information' and 'Assign Vehicles'. The main content area features a search bar labeled 'Search vehicles...', a blue button 'Add all vehicles to first company', and a list of vehicle entries. Below this is a table with 'Previous' and 'Next' navigation buttons, a 'Page 1 of 0' indicator, and a table with two columns. The top right corner contains utility icons for language, full screen, and settings.

Screenshots – Add/remove UIT number(s) to vehicle

The screenshot displays the 'TM47ESY - UIT NUMBERS' interface. On the left is a dark sidebar with navigation options: Home, COMPANIES (tony1, tony2), HISTORY (tonytestcompany), MAINTENANCE (Users, Companies, Vehicles), and INFORMATION (Help, GDPR). The main content area features a search bar, 'Delete Selected' and 'Upload UIT File' buttons, and 'Show Active UITs' and 'Add UIT Number' buttons. A table with columns 'UIT Number', 'Trailers', 'Date Created', 'Date Removed', and 'Remove UIT' is shown, but it is empty with the message 'No matching records found'. A modal dialog titled 'Add UIT number to **TM47ESY**' is open, containing a text input field for 'UIT Number' and 'Close' and 'Add UIT Number' buttons.
