TollTally: MapUp's toll tracking and management solution for fleets

TollTally provides real-time visibility into your fleet's toll expenses, helping you minimize costs and boost efficiency. Seamlessly integrated with major fleet management platforms, TollTally offers centralized management and near-real-time tracking of toll data, empowering your fleet to reduce unnecessary expenses and make informed decisions.

“ *Ultimately, it will enable near-real-time toll tracking capability to enhance your fleet's toll management* ”

With TollTally You Enjoy

1. Centralized visibility into your fleet's toll expenses
2. Seamless integration with major fleet management platforms
3. Comprehensive toll tracking across multiple telematics providers

How Does it Work?

1. Connect TollTally to your preferred fleet management platform
2. TollTally automatically processes your fleet's toll data
3. Access comprehensive toll reports and insights through our dashboard

**MapUp makes fleet toll calculations
Real-time & Intelligent across the world**

TollTally Dashboard

- ❑ Introduction

- ▶ **Dashboard Widgets**

- ❑ Txn View

- ❑ Trip View

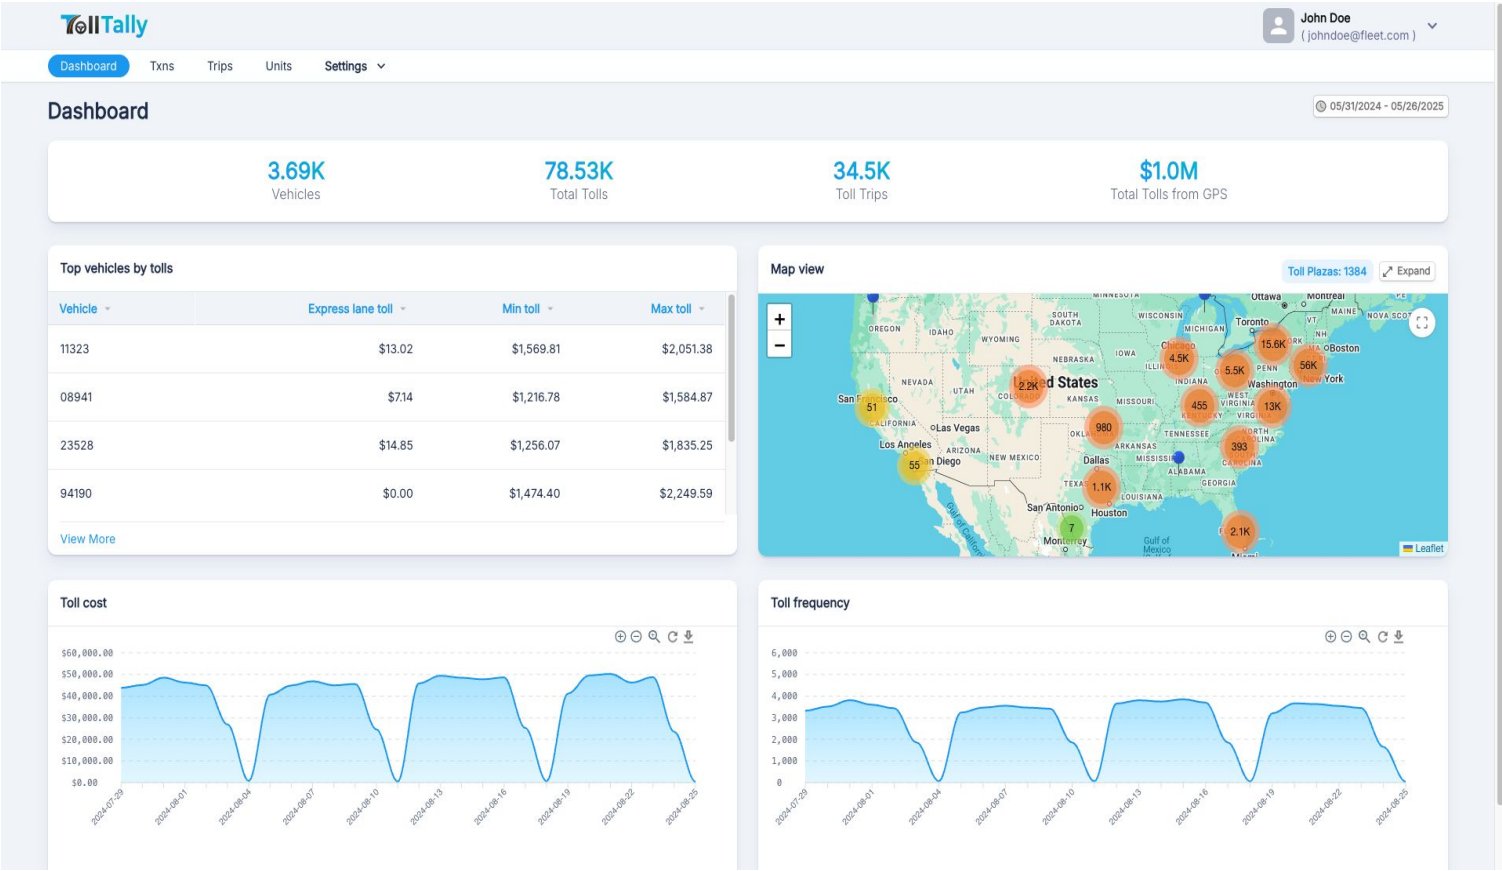

- ❑ Unit View

- ❑ Settings Options

TOLLTALLY DASHBOARD OVERVIEW

The homepage provides TollTally summary via charts, trends and map widgets. The insights include:

- ❑ Cost and transaction summary (for the specific time period)
- ❑ Toll locations on the map
- ❑ Daily trend toll spend
- ❑ Vehicles with highest tolls paid

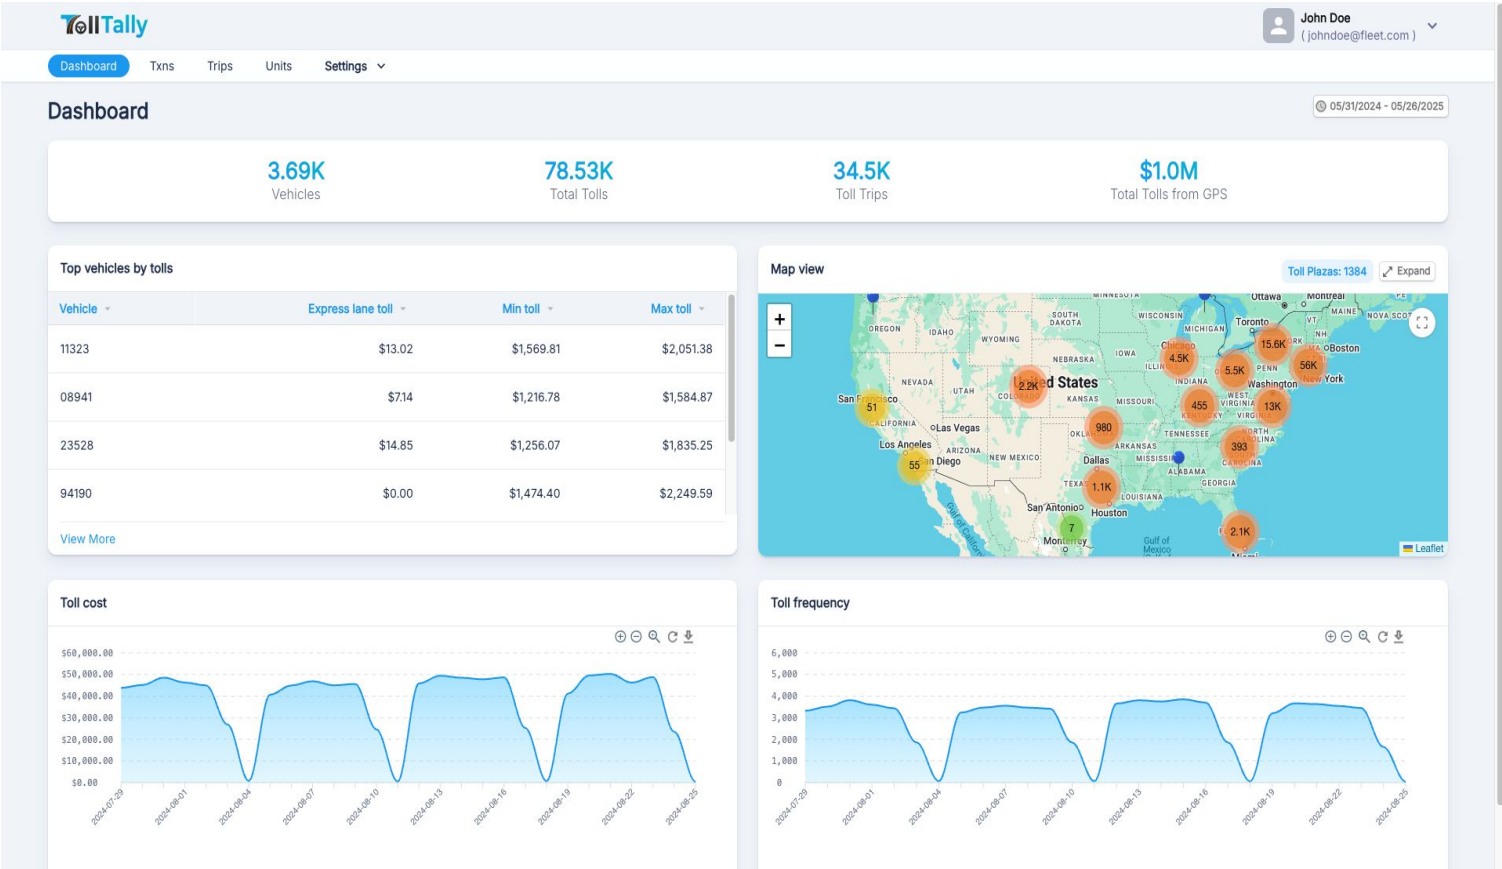

The homepage includes following widgets:

- ❑ Cost overview
- ❑ Map view
- ❑ Daily toll cost
- ❑ Top vehicle by tolls

TOLLTALLY DASHBOARD OVERVIEW (cont.)

The TollTally dashboard is divided into multiple views to facilitate accessing different views/reports for fleet's toll spend data and insights:

- ❑ Dashboard
- ❑ Txn View
- ❑ Trip View
- ❑ Unit View
- ❑ Settings

TOLLTALLY DASHBOARD OVERVIEW (cont.)

All the widgets/views are equipped with a set of features, including:

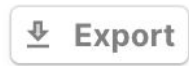

Date filter to adjust the duration of analysis

Search by VIN, Vehicle ID or GSP source ID

Connect your Samsara, Motive, Geotab and FTS accounts to TollTally Dashboard

Export the view data as CSV
(More formats and custom selection of fields coming soon)

See more details on the trip

View the trip/invoice on the map

Sort the view data in ascending/descending order

Generate a toll report as a PDF file for your trips.

User can disable and enable the table columns. (It will persist until user change or clear the filter.

Flag your trips for later. They will be visible under flagged trips.

TOLLTALLY DASHBOARD WIDGETS

1. Top Vehicle Toll Widget

The Top Vehicles by Tolls widget provides a clear overview of the total toll expenses incurred by the top vehicles in a fleet. It ranks the vehicles based on their toll costs, helping fleet managers track toll expenditures efficiently.

Top vehicles by tolls

Vehicle	Express lane toll	Min toll	Max toll
11323	\$13.02	\$1,569.81	\$2,051.38
08941	\$7.14	\$1,216.78	\$1,584.87
23528	\$14.85	\$1,256.07	\$1,835.25
94190	\$0.00	\$1,474.40	\$2,249.59

View More

← Total toll spent by vehicles

2. Daily Toll Cost Widget

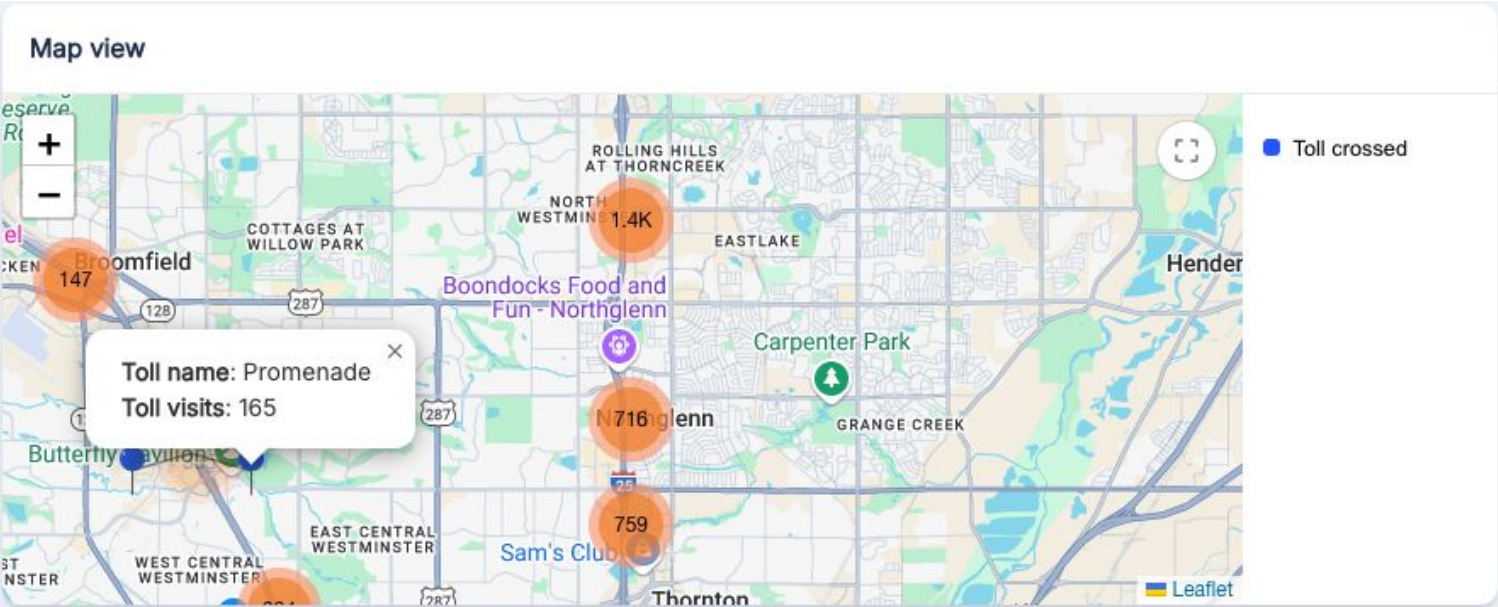

The Toll Cost Trends widget displays a graph of toll expenses over time. With toll costs on the y-axis and dates on the x-axis, it provides a quick visual analysis of spending patterns..

TOLLTALLY DASHBOARD WIDGETS (cont.)

3. Map View Widget

The Toll Location Map widget displays markers for all tolls crossed during trips. Users can click on each marker to view the specific toll name

We Offer World's Most Comprehensive Toll & Trip Intelligence

MapUp is a Silicon Valley pioneer in GPS-based, AI-powered, tolling solutions, empowering fleets across 90+ countries with pre-trip toll optimization, real-time toll billing, toll payments and post-trip toll reconciliation. Our suite of products, including TollGuru®, TollTally™, TollTally™, and TollPay™ help fleets with reducing toll billing cycles, improving driver/customer satisfaction, and cutting down toll expenses.

Map independent

MapUp Toll intelligence works for any mapping service - OpenStreetMap, Google Maps, Bing, MapBox, Apple Maps, HERE, etc. out of the box. Easy to integrate.

1 Global toll service

MapUp toll intelligence is numero uno toll service across the globe. Works for all vehicle types, payment methods, and tolling systems.

Airflow based architecture

Scalable data pipelines backed by AI powered algorithms to accommodate any tolling systems across the globe. Over 200 data pipeline checks before every update

Automated, Accurate and Verifiable

-  **Automated:** MapUp's automated data pipelines ingest data from multiple sources. The pipelines are set to run 200 plus automated checks before any data update. Data engineers need to only verify if the automated checks throw an error.
-  **Accurate:** In addition to enterprise customers, MapUp's apps and web calculators are used by over 6 million users across the globe. The crowdsourced feedback from users keeps MapUp data current and accurate all the time.
-  **Verifiable:** MapUp's toll information is used by enterprises to reimburse for tolls to employees and contractors and by shippers to estimate and pay for tolls to third parties. The toll estimates from MapUp are verified against toll receipts from tolling agencies.

MapUp is a Silicon Valley startup revolutionizing the way modern fleets manage tolls billing and payments through its AI-based, software-defined tolling solutions. Operating in 90+ countries across North America, Europe, Asia, Australia, and Latin America, MapUp empowers fleets with pre-trip toll optimization, real-time toll billing, toll payments and post-trip toll auditing, leading to reduced billing cycles, improved driver/customer satisfaction, and significant cost savings. At the heart of MapUp's innovative solutions are its flagship products, including TollGuru® for pre-trip toll intelligence and optimization, TollTally™ for GPS-based real-time toll billing, TollPay™ for automated toll payments, and TollMatch™ for post-trip toll reconciliation. Trusted by world-renowned fleets such as Lyft, Getaround, Revel, FirstFleet, Kuehne + Nagel, Unilever, etc. MapUp is committed to solving real-time toll payments and enhancing toll management for the future.
